

Vseries DOOR SYSTEM

A HIGH PERFORMANCE SYSTEM

V-Series units offer high performance components in one innovative door system that's built to last and ready for the real world.

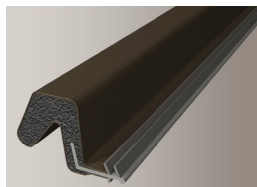

RDS – REPLACEABLE DECK SILL™

The first and only sill that eliminates the costly task of addressing the sill deck damage. RDS makes an accident on the job site an easy fix.

FRAMESAVER® DOOR FRAMES

FrameSaver never absorbs water, rots, cracks or warps, and is backed by the industry's strongest warranty.

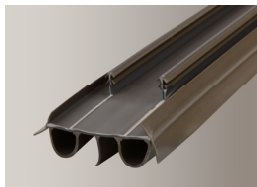

PE650 WEATHERSTRIP

Superior weathersealing performance, eliminating air and water infiltration and maintaining a tight seal, no matter what.

SIMPLE SOLUTION® CORNER PAD

Small in size but big in impact. The Simple Solution Corner Pad seals out air and moisture, even with wide margins.

DUAL BULB DOOR BOTTOM

A superior barrier against water, air, and dirt with the protection of two flexible sealing bulbs. The Leading Edge Bulb design provides a continuous seal along the sill cap.
