# Hardie® Panel Vertical Siding

Hardie® Panel vertical siding delivers style and substance. When combined with Hardie® Trim boards, it achieves the rustic board-and-batten look that defines cottage charm. The covered seams contribute to a well-insulated home.

Its crisp, clean lines make Hardie® Panel vertical siding a smart choice for strong, contemporary designs.

## SELECT CEDARMILL®

Available in 12 ft x 16 in Primed

Hardie® Panel's natural cedar look has a soft texture that mimics wood.

- Faster lead times than 4 ft panel
- Non-allocated product
- 12 ft height allows for less breaks
- Able to nail 3/8 in from panel edge
