

SIDING & TRIM

Poly-Ash Technology

TruExterior poly-ash siding is unlike any other exterior siding. It has the versatility and toughness to stand up to extreme weather, ground contact and damage from bugs.

TruExterior gives pros total freedom to create custom looks with authentic siding and trim profiles that can be cut, milled, glued, stained and painted to achieve outstanding curb appeal that homeowners can't resist.

- Products come primed and require paint
- No need to prime end cuts
- Designed for use in non-structural applications
- Suitable for ground and masonry contact
- Resists damage from rot and termites
