

Proud Distributor of
Owens Corning® Products

FOAMULAR® ProPink® Extruded Polystyrene (XPS) Rigid Foam Insulation

Ideal for either wood or metal framing construction, and suits a variety of exterior finishes.

Key Features

- Excellent long-term stable insulating performance in various thicknesses: 1/2" (R-3), 3/4" (R-4) and 1" (R-5)
- Exceptional moisture resistance, long-term durability
- Limited lifetime warranty - maintains 90% of R-value and covers all ASTM C578 properties
- GREENGUARD Gold Certified
- The only XPS foam with certified recycled content - certified by SCS Global Services to contain a minimum 20% recycled content
- Will not corrode, rot or support mold growth
- Zero ozone depletion potential with 70% less global warming potential than our previous formula
- Reusable
- Lightweight, durable rigid foam panels are easy to handle and install
- Easy to saw, cut or score

HomeSealR® Foam Joint Tape

Used to tape the joins of FOAMULAR® XPS in residential applications.

Key Features

- Meets the criteria as an air and water barrier when used with FOAMULAR®
- Seal doesn't break as it flexes and stretches to move with the building structure
- Can be installed at temperatures 10°F to 120°F
- Easy application with a standard tape gun

FlashSeal[®] Foam Flashing Tape

Used to seal around window and door openings when using FOAMULAR[®] XPS.

Key Features

- Thin and flexible to seal around penetrations and uneven surfaces
- Highly aggressive adhesive for long term adhesion to foam sheathing
- Can be applied in low temperatures, even down to 0°F
- Remains flexible and elastomeric
- Seals around nails and staples to prevent moisture intrusion
- Split release liner for ease of installation

ProPink[®] ComfortSeal[™] Sill Gasket

ProPink[®] ComfortSeal[™] Sill Gasket is a polyethylene foam gasket which provides resilient sealing in new and retrofit construction.

- Minimizes air leakage
- Resists moisture
- Insect resistant
- Installs quickly and easily, with no special tools
- Long lasting and durable

Standards, Code Compliance

- Class A Fire Rating
- Does not support mold growth
- GreenGuard[™] Certified

ProPink[®] ComfortSeal[™] Framing Gasket

ProPink[®] ComfortSeal[™] Framing Gasket is a low cost, durable, easy to install, compressible polyethylene foam gasket specially designed to seal air leakage gaps.

- Reduces air infiltration and heat loss
- Reduces noise transmission
- Moisture resistant
- Insect resistant
- Installs and cuts easily
- Long lasting and durable

Standards, Code Compliance

- Class A Fire Rating
- Does not support mold growth
- GreenGuard[™] Certified
