

ONYX NOVA 90

PIGMENTED FIBERGLASS EXTERIOR DOORS

Enhance the aesthetics and natural light of any home with the Nova series, featuring direct-glazed glass that delivers a seamless, elegant design. For an added level of performance and style, ONYX offers durable, enhanced pigmented fiberglass, providing rich, long-lasting color without the need for frequent maintenance or painting. The color is built directly into the door for lasting impact.

Exclusive HydroShield™ Technology protects doors against moisture and humidity infiltration by forming a fully composite barrier that encases and seals the door on all six sides. This advanced protection helps prevent warping, delamination, corrosion, rotting, and the buildup of mold and mildew. When paired with PF (Polyfiber) Door Frames, doors featuring HydroShield Technology create a truly impenetrable entryway.

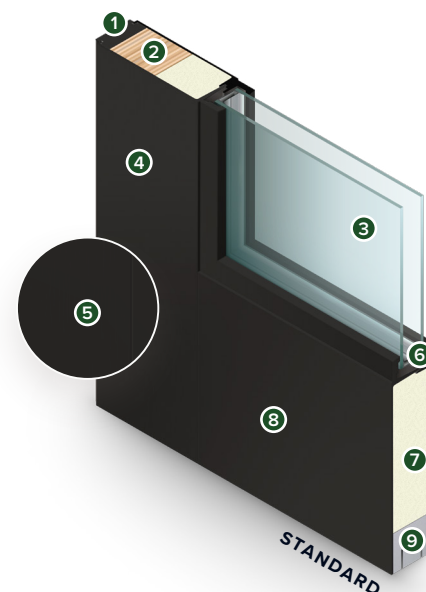

When paint is applied on top of a fiberglass door skin, if the paint chips, the door will need to be touched up to not see the fiberglass beneath.

ONYX pigment permeates the entire door skin, meaning the color won't flake off like paint revealing the fiberglass underneath.

FEATURES & BENEFITS

- 1 COMPOSITE STILE CAP
- 2 FULL LENGTH LVL (Hinge & Strike side, for extra rigidity)
- 3 INSULATED 1" GLASS
- 4 ONYX COMPRESSION MOLDED FIBERGLASS SKIN
- 5 BRUSH FINISHED TEXTURE
- 6 INTEGRALLY MOLDED GLASS STOP
- 7 HIGH DENSITY POLYURETHANE FOAM
- 8 ADA COMPLIANT BOTTOM RAIL
- 9 COMPOSITE BOTTOM RAIL
