**LIGHTEN**<sup>™</sup>  
IN-FRAME LIGHT

Built with security in mind, a battery powered light bar built into the jamb header illuminates entry doors when movement is detected using dusk-to-dawn motion sensors. Add functionality and peace of mind to any exterior door with LightEn<sup>™</sup>.

Introducing LightEn™, an innovative lighted header addition to Endura's outstanding line of door frames for pre-hung exterior doors. LightEn equips entry doors with a built-in overhead light to provide illumination at night for security and convenience.

## Features and Benefits

### Requires No Wiring:

The LightEn header is battery-powered and removes the need for in-home wiring.

### Automatic Light:

Dusk to dawn automatic motion sensors ensure illumination at night and in dark areas.

### Battery Pack:

LightEn is powered with Lithium AA batteries. The battery pack uses eight standard Lithium AA batteries for easy off-the-shelf replacement.

## Availability and Pricing

- Compatible with Endura FusionFrame, FrameSaver and commodity jambs.
- Length Options:
  - Single Doors (2/6 to 3/0)
  - Double Doors (up to 6/0)
  - Mull Headers (1/2-3/0-1/2)

### Pricing:

Please contact your Endura or Masonite Sales Representative for Pricing Information.

## INNOVATION POWERED BY ENDURA.

Endura is built on innovation and a commitment to performance. Our products are problem solvers, born directly from insight we've learned from our customers about real-world challenges. We're always pushing ourselves to face an ever-present challenge: How can we make your door system work better?

Innovation protected under patents and patents pending in U.S. and Canada.
